WHAT THE GENERAL SAID!

A noted General being asked by some of his friends how he liked Texas, replied: "If I was obliged to choose between Hell and Texas, I would choose the former." The above rumor is verified every day by parties moving from the North, East and South, and as they cannot decide exactly as to the existence of the former they certainly avoid Texas, and like sensible, industrious people, seek a productive country, such as Missouri, Kansas, Colorado, Nebraska and the Far West. Reader, are you contemplating a trip to such a country on business or pleasure? If so, select the line having the least change of cars and best accommodations. The Old Reliable Hannibal & St. Joseph R. R. (the Pioneer line west of the Mississippi River) offers you through Day Coaches and Pullman Palace Sleeping Cars from Chicago, Ills., *Toledo, Ohio, and Indianapolis*, Indiana, to the Missouri River without change. Tourist and Land Seeker's round trip excursion tickets on sale by this popular route at all Eastern Ticket Offices. WHY THE HAIR FALLS OUT,

And How to Restore its Strength and Color. Baldness is preceded by an excessive dryness of the hair, which should be cured by a small application of Ayer's Hair Vigor. As long as the hair blood vessels have a healthy circulation the hair will continue to grow, but if from disease or other cause they become impaired or obstructed, the hair necessarily becomes dry and falls off. It is here the wonderful influence of Ayer's Hair Vigor is most manifest. It nourishes the vessels, promotes the circulation, checks the hair to its natural vigor, and restores the color of the hair. Apart from its value as a dressing, it is the most cleanly and agreeable of all hair preparations, making it impossible for the toilet of every lady and gentleman. Sold by druggists and all dealers in medicine.

"ITCHING PILES"

"I WAS A GREAT SUFFERER from Itching Piles, the itching at times was almost intolerable, particularly at night, when undressing, or after getting warm in bed. I tried preparations almost innumerable without finding any permanent relief, until I used Swayne's All-healing Ointment, which has made a perfect cure." Joseph W. Christ, (firm of Rosskel & Christ) boot and shoe house, 346 North Second street, Philadelphia. Reader, if you are suffering with this distressing complaint, or any scaly, crusty skin disease, tetter, &c., use "Swayne's Ointment" and be cured. Fifty cents a box. Address letters to Dr. SWAYNE & SON, Philadelphia. All leading druggists sell it. "Dr. Swayne's Medicines have a world wide reputation." [apr25,1878-eod

TROPICAL FRAUDS.

The Romance and Reality of Tropical Countries.

That tropical towns are squalid and miserable, I suppose everybody more or less believes. I discovered at a later date that Kingston, compared with Santa Martha or Savanilla, might be considered a clean, thriving and civilized city. By *to my untutored* European mind it seemed at first sight more frightful than anything I could have believed of Coomassie or Timbuctoo. I suppose those who stay at home have no idea what an extra European town must necessarily be. At any rate, I could not before have believed that there existed on earth a place so wretched, so mean looking, so utterly bankrupt and disreputable, as that in which I then stood. But the country, thinks the unsophisticated Briton, the country must be beautiful! There the hand of man cannot mar the natural charms of green fields and lovely flowers. There the waving sugar cane, the graceful bamboo, the spreading tree fern, the magnificent palms (those palms again!) must make a scenery of fairy loveliness. There the orange trees, the parrots, the butterflies—all, my dear sir, all more fancy! Go and see for yourself, or trust those who have seen. Such things you may find at Kew Gardens or Sydenham, but not, I assure you, in the tropics. Behind the town lies a plain, occupied for the most part by straggling *Canes* and cultivated land. You may drive out on any side along a dusty road and survey the beauties of nature as they unfold themselves to your inquiring eye. Hedges of cactus shut it in on either hand, and of course shut off the prospect of every object except their own obtrusive selves. Now a cactus hedge is a very pretty thing in the abstract, that is to say a hedge of such cactus plants as one may see at Kew or Sydenham, where and—But the concrete cactus hedge of reality consists of tall, scraggy stalks, flowerless and spiny, covered half an inch deep in collected dust, and as thoroughly unromantic as dirt and neglect can make them. Here and there a gap in the hedge, or an interval of wire fencing, allows one to glance at the fields within. And what fields! No soft turf, peel with daisies and buttercups, but great dusty levels, overgrown with rank and weedy vegetation, more like rushes than English grass. The dust lies in its spiky blades, not in light powder but thick and deep as in an uninhabited room. You cannot see the shape of the leaves for the white layer that overlies them, always, of course under that pelting sunlight which makes the dullest gray come out in staring whiteness. The plain is one unbroken sea of dingy weeds, and the tropical country has followed the tropical town to John Milton's limbo of false imaginings, the Paradise of Fools. And the flowers? Well, there are no flowers. A few rare trees *burst once a year into masses of* crimson bloom, a few stray plants after the rainy season open their faint yellow petals in the fields from which the showers have washed away the surface dust, but the general aspect of every tropical plain is one of monotonous and weary some greenish brown. As to walking in the fields in search of flowers, you might as well walk through *an acre of furze*. In tropical countries no man strays far from the dry highway or if he strays he repents it afterward with many a literal thorn in the flesh, not to mention many a creeping thing, buried deep beneath his tender skin. The fruits are there, one must allow, but not the luscious fruits of our imagination. Good oranges are found only in temperate climates—those which grow under a vertical sun run more to rind, pulp and fiber, than to sweet juice or delicate flavor. Pineapples in the West Indies are more *nearly of sugary string, and to gum* pare with our delicious hot house fruit. As for common rank of harvest, nauseous mangoes, mealy bananas, sloppy custard apples, insipid chermoyers, infamous mosberries—they deserve no place at any decent table, and, to say the truth, seldom obtain one. While we at home are talking with luscious lips of the exquisite *tropical fruits*, the wise planters is quietly importing prunes and raisins, figs and olives for his own desert, and would as soon think of eating a crocodile as of putting the common and tasteless species of his native trees before his English guests. *From The Great Tropical Fallacy, in Belgravia for June.*

Have You Dyspepsia?

With its attendant troubles—constipation, headache, loss of appetite, gloominess and wretched distress after eating? If so take Dr. Sanford's Radical Cure and be well. Its result is astonishing and sure relief is guaranteed in every case, where it is used as directed. It assists digestion, tones up the stomach, strengthens the debilitated, restores a natural appetite and as a liver regulator has no equal. A clergyman of Philadelphia says: It is the very *fountain of health*. To all who are suffering from a disordered stomach or liver, or who need a gentle spring or summer tonic, we say try it, and you will thank us for the advice. Trial size 25 cents. Sold by Dr. A. J. Stoner, druggist, Decatur.

Also agent for *Prof. Parker's* Pleasant Worm Syrup, which is sure death to worms. Pleasant to take, and requires no physic. Price 25 cents. Try it.

CATARRH

Sneezing Catarrh, Chronic Catarrh, Ulcerative Catarrh, permanently cured by

SANFORD'S RADICAL CURE.

SANFORD'S RADICAL CURE FOR CATARRH is a safe, certain, and permanent cure for Catarrh of every form and both the most perfect remedy ever devised. It is pure, by a special distillation, and is applied locally by insufflation, and constitutionally by internal administration. Locally applied, *it cleans the nasal passages*. It soothes, heals, and cleanses the nasal passages of every feeling of heaviness, obstruction, dulness, or dizziness. Constitutionally administered it removes the blood, poisons and the poison with which it is always charged in Catarrh, stimulates the stomach, liver, and kidneys, perfects digestion, makes new blood, and permits the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of SANFORD'S RADICAL CURE, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references. It is a great and good medicine, and worthy all confidence. Each package contains a Douche and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price $1.

An Enthusiastic Friend of Sanford's Radical Cure.

McKEATON, GLADY & BOWEN'S DRUG STORE, "SAN FRANCISCO ADVANCE," Sacramento, Cal., Feb. 7, 1878.

A. A. METCALF, Washington Av., City.
Dear Sir: I have for some years been troubled with Catarrh, and I find it, I believe, incurable. I have tried many remedies, but find only with SANFORD'S RADICAL CURE, which I have used for some time. I have not had any symptoms of the disease since, and now feel like I may be cured of it. I recommend it to my friends and relatives, and will take pleasure in doing so to the public. I have recommended it to quite a number of my friends, and they have expressed themselves in the highest terms of it. I really think it particularly adapted to country life, and I ought to know, as I have had the Catarrh for years, and have tried the various Inhalants and Douches, but with no lasting benefit, until my friend suggested the use of your Radical Cure. The first was almost painful, for, to my practical surprise, I was almost instantaneously well again, and was able to work upon my farm as usual, which is before the application of the Plaster, I could do nothing and very seldom free from pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the second Plaster proved as efficacious as the first, and from a well. My wife wishes me to add that one Plaster has cured her of a very bad cough. We think there is nothing in the world so good as that can compare with the CELEBRATED VOLTAIC PLASTERS. Yours, JOHN LANE, Lane's Rock, Calaveras Co., Cal.

ORLEANS, Mich., June 6, 1876. GENTLEMEN: I have been troubled with Catarrh for many years, and have tried many remedies without effect. I was induced to try your Radical Cure, and find it the most effectual remedy I have ever found. I have recommended it to my friends, and shall do so to all who need it. Yours, W. H. COLLINS.

NOT A QUACK NOSTRUM.

Gentlemen: I hereby certify that for several years past I have used the Radical Cure in my practice, and have never had a failure. I do not hesitate to say it is the most effectual remedy I have used in the treatment of Catarrh. It is a great and good medicine, and worthy all confidence. Each package contains a Douche and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price $1.

LAME BACK AND RHEUMATISM

CURED BY

COLLINS' VOLTAIC PLASTERS

Messrs. Weeks & Potter, Gentlemen,—One year ago I was seized with a severe attack of Rheumatism in my right hip, which I was subject. I tried the various Rheumatic and Electric cures, but with no lasting benefit, when my wife, a druggist, suggested one of your Celebrated Voltaic Plasters. The effect was almost magical, for, to my grateful surprise, I was almost immediately well again, and was able to work upon my farm as usual, which is before the application of the Plaster, I could do nothing and very seldom free from pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the second Plaster proved as efficacious as the first, and from a well. TROPICAL FRAUDS.

The Romance and Reality of Tropical Countries.

That tropical towns are squalid and miserable, I suppose everybody more or less believes. I discovered at a later date that Kingston, compared with Santa Martha or Savanilla, might be considered a clean, thriving and civilized city. By to my untutored European mind it seemed at first sight more frightful than anything I could have believed of Coomassie or Timbuctoo. I suppose those who stay at home have no idea what an extra European town must necessarily be. At any rate, I could not before have believed that there existed on earth a place so wretched, so mean looking, so utterly bankrupt and disreputable, as that in which I then stood. But the country, thinks the unsophisticated Briton, the country must be beautiful! There the hand of man cannot mar the natural charms of green fields and lovely flowers. There the waving sugar cane, the graceful bamboo, the spreading tree fern, the magnificent palms (those palms again!) must make a scenery of fairy loveliness. There the orange trees, the parrots, the butterflies—all, my dear sir, all, all mere fancy! Go and see for yourself, or trust those who have seen such things—you may find at Kew Gardens or Sydenham, but not, I assure you, in the tropics. Behind the town lies a plain, occupied for the most part by grazing farms and cultivated land. You may drive out on any side along a dusty road and survey the beauties of nature as they unfold themselves to your inquiring eye. Hedges of cactus shut it in on either hand, and of course shut off the prospect of every object except their own obtrusive selves. Now a cactus hedge is a very pretty thing in the abstract, that is to say a hedge of such cactus plants as one may see at Kew or Sydenham aforesaid. But the concrete cactus hedge of reality consists of tall, scraggy stalks, flowerless and spiny, covered half an inch deep in collected dust, and as thoroughly unromantic as dirt and neglect can make them. Here and there a gap in the hedge, or an interval of wire fencing, allows one to glance at the fields within. And what fields! No soft turf, pied with daisies and buttercups, but great dusty levels, overgrown with rank and weedy vegetation, more like rushes than English grass. The dust lies in its spiky blades, not in light powder but thick and deep as in an uninhabited room. You cannot see the shape of the leaves for the white layer that overlies them, always, of course, under that pelting sunlight which makes the dullest gray come out in staring white. The plain is one unbroken sea of dingy weeds, and the tropical country has followed the tropical town to John Milton's limbo of false imaginings, the Paradise of Fools. And the flowers? Well, there are no flowers. A few rare trees burst once a year into masses of crimson bloom, a few stray plants after the rainy season open their faint yellow petals in the fields from which the sheep have washed away the surface dust, but the general aspect of every tropical plain is one of monotonous and weary some greenish brown. As to walking in the fields in search of flowers, you might as well walk through an acre of furze. In tropical countries no man strays far from the dry highway, or if he strays he repents it afterward with many a literal thorn in the flesh, not to mention many a creeping thing, buried deep beneath his tender skin. The fruits are there, one must allow, but not the luscious fruits of our imagination. Good oranges are found only in temperate climates—those which grow under a vertical sun are more to rind, pulp and fiber, than to sweet juice or delicate flavor. Pineapples in the West Indies are mere masses of stringy stuff, unfit to compare with our delicious hot house fruit. As for common rank of berries, rest, nurses, mangoes, mealy bananas, sloppy custard apples, insipid chermoyes, insipid mesberries—they deserve no place at my dessert table, and, to say the truth, seldom obtain one. While we at home are talking with luscious lips of the exquisite tropical fruits, the wise planter is quietly importing prunes and raisins, figs and olives for his own dessert, and would as soon think of eating a crocodile as of putting the common and tasteless messes of his native trees before his English guests. *From The Great Tropical Fallacy, in Belgravia for June.*

Have You Dyspepsia?

With its attendant troubles—constipation, headache, loss of appetite, gloominess, wretchedness, distress after eating, &c. If so, take Dr. Oates's Medical Cure and be well. Its result is astonishing and sure relief is guaranteed in every case, where it is used as directed. It assists digestion, tones up the stomach, strengthens the debilitated, restores a natural appetite, and as a liver regulator has no equal. A clergyman of Philadelphia says: It is the very fountain of health. To all who are suffering from a disordered stomach or liver, or who need a gentle spring or summer tonic, we say try it, and you will thank us for the advice. Trial size 25 cents. Sold by Dr. A. J. Stoner, druggist, Decatur.

Also agent for Prof. Parker's Pleasant Worm Syrup, which is sure death to worms. Pleasant to take, and requires no physic. Price 25 cents. Try it. Aug 11 d&w4w

WHAT THE GENERAL SAID!

A noted General being asked by some of his friends how he liked Texas, replied: "If I was obliged to choose between Hell and Texas, I would choose the former." The above opinion is verified every day by parties moving from the North, East and South, and they cannot decide exactly as to the existence of the former, they certainly avoid Texas, and like sensible, industrious people, seek a productive country, such as Missouri, Kansas, Colorado, Nebraska and the Far West. Reader, are you contemplating a trip to such a country on business or pleasure? If so, select the line having the best change of cars and best accommodations. The Old Reliable Hannibal & St. Joseph R. R. (the Pioneer line west of the Mississippi River) offers you through Day Coaches and Pullman Palace Sleeping Cars from Chicago, Ills., Toledo, Ohio, and Indianapolis, Indiana, to the Missouri River without change. Tourist and land seeker's round trip excursion tickets on sale by this popular route at all Eastern Ticket Offices. WHY THE HAIR FALLS OUT,

And How to Restore its Strength and Color. Baldness is accelerated by a bad system of blood, the latter being nourished by such food as fats. As long as the blood vessels furnish sufficient nourishment the hair will continue to grow, but if from disease or other cause they become partially obstructed, the hair will necessarily become dry and fall out. It is here the wonderful virtues of "Parker's Hair Balsam" are manifested. It acts on a new principle, supplies the scalp to healthy condition, and induces a growth of hair in its natural youthful color, as sure to be the result. April 1 cents from and coloring qualities. London Hair Color is the most cleanly and lasting of all hair dressings, making it indispensable on the toilet of every lady and gentleman. Sold by all druggists.

CATARRH
Sneezing Catarrh, Chronic Catarrh, Ulcerative Catarrh, permanently cured by
SANFORD'S RADICAL CURE.

SANFORD'S RADICAL CURE FOR CATARRH is a safe, certain, and permanent cure for Catarrh of every form and stage, the most perfect remedy ever devised. It is pure, by a special chemical distillation, and is applied locally by insufflation, and constitutionally by internal administration. Locally applied, it *relieves in six minutes*. It soothes, heals, and cleanses the nasal passages of every feeling of heaviness, obstruction, dulness, or dizziness. Constitutionally administered it renovates the blood, purifies it of the acid poison with which it is always charged in Catarrh, stimulates the stomach, liver, and kidneys, perfects digestion, makes new blood, and promotes the formation of sound, healthy tissue, and finally obtains complete control over the disease. The remarkable curative powers, when all other remedies utterly fail, of SANFORD'S RADICAL CURE, are attested by thousands who gratefully recommend it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most reputable and reliable references. It is sold at a fair price, and is worthy all confidence. Each package contains a Treatise on Catarrh and Dr. Sanford's Improved Inhaling Tube, and full directions for its use in all cases. Price $1.

An Enthusiastic Friend of Sanford's Radical Cure.

HOLLAND, GRANT & BOWEN'S TITLE ABSTRACT HALL OF JUSTICE, GENERAL AGENCY, Louisiana, Pike County, Mo., Feb. 5, 1877.

A. A. SMITH, Washington Av., City.—Dear Mother: I have for many years been troubled with Catarrh and Hoarseness. Every year I have had a severe attack, which would last me for months. Last year I used your SANFORD'S RADICAL CURE, which left me free from the disease. I have not been troubled with it since. I have not hesitated to tell my friends and relations what it did for me, and now I do not hesitate to tell the public that it is the best medicine for Catarrh I have ever seen. I have recommended it to many of my friends, who have used it with the same good results. I really think it performs what it promises. I will mention the fact that I used a sample bottle of your Catarrh Snuff, which I bought of Dr. Bowen, of Louisiana, Mo., and it cured me. I shall use your Snuff myself, and shall continue to recommend it to my friends. Very respectfully, WM. BOWEN.

Sold by all Wholesale and Retail Druggists and Dealers in Medicine throughout the United States and Canadas. WILLIAM WARNER & CO., General Agents, and Wholesale Druggists, Boston, Mass.

LAME BACK AND RHEUMATISM
CURED BY
COLLINS' VOLTAIC PLASTERS

Messrs. Weeks & Potter, Gentlemen,—One year ago I was taken with a severe attack of rheumatism in my right hip, so as to be lame. I tried the various Rheumatic cures, but with little or no benefit, when my wife, at the suggestion of your agent, put on a Collins Voltaic Plaster. The effect was almost magical, for, to my grateful surprise, I was almost immediately well again, and was able to work upon my farm as usual, while, before the application of the Plaster, I could do nothing and every step gave me pain. A few weeks since, one year from the first attack, the disease returned, but I am happy to say the same good Plaster proved as efficacious as the first, and I am now, by my wife's advice, putting on another, that one Plaster has cured her of a very bad back. We think there is nothing in the world like them, and that one is worth more than a dozen of any other kind. We recommend them to the suffering. Yours, very respectfully, ORLANDO MEE, Jan. 6, 1878. JOHN H. COTTON.

NOT A QUACK NOSTRUM.

Gentlemen: I hereby certify that for several years past I have used the Collins Voltaic Plasters in my practice, and have always found them to be a highly efficacious remedy. Yours, etc., W. W. COLLINS, M. D., Ashley, Mich.

PRICE 25 CENTS.

Being Entirely Vegetable, they are perfectly harmless in any quantity. Collins' Voltaic Plasters are sold by all Wholesale and Retail Druggists throughout the United States, and may be sent by mail, on receipt of price, to any address, by WEEKS & POTTER, Sole Proprietors, 170 Washington St., Boston, Mass.

at one o'clock p. m. for the purpose of nominating a candidate for Senator and two candidates for Representatives. The number of delegates to which each county will be entitled will be as follows:

Macon	[illegible]
DeWitt	[illegible]

E. C. LEARNED, Chairman Dist. Com.

HE DID RIGHT.

The attack made upon Sheriff Forstmyer last night by Rev. J. G. White, at his meeting in front of the Priest House will not hurt that officer very much in the minds of sober, thinking people. Mr. Forstmyer tells the people in to-day's paper, just what he did and why he did it, and this plain, straightforward statement will not be able to extract from it much that will do him good. The note sent by the sheriff was delivered to Mr. White about twelve o'clock giving him ample time to secure the opera house if he so desired, and to give notice of the change at his afternoon meeting in Imboden's Park. His object, therefore, that he was not notified of the sheriff's refusal until too late to procure another place falls to the ground.

The logic of the position assumed by the sheriff in his note to Mr. White is too sound to need much in the way of defense. Mr. White announces in his handbill his purpose to expose the hideousness of Catholicism and promises "horrible disclosures relative to the secret abominations of the Roman Catholic confessional showing there ought to be a law to suppress the confessional, and the secret Roman theology, they being a public source of crime and licentiousness." Now we presume nobody will deny Mr. White right to make these statements, if he believes them to be true, but it is rather a presumption upon their humanity to ask those who are Catholics to furnish him a place in which to promulgate such sentiments, free of expense to himself. Our laws wisely make no distinction between Catholic and Protestant. The former pays taxes for the support of the government, just like the latter. When the country is in danger the Catholic is expected to stop the bullets of the public enemy in common with his Protestant brother, and the army records show that he does his whole duty in this regard. Why then should the buildings built by taxation of which he bears his full part, be used for the purpose of casting ridicule and obloquy upon his religious faith, the peaceable enjoyment of which is guaranteed to him by the fundamental law of the land? Suppose a Catholic speaker should come along and be granted the use of the court house, in which to abuse the Protestant religion and charge it with designs upon civil and religious liberty, would there not be a howl of indignation from every Protestant in the city? And they would be justified too. Sensible Protestants will not be long in determining the right and wrong in this matter, no matter which foot the boot pinches.

But there is another aspect of this case, not touched on by the sheriff in his note to Mr. White, but which would have been sufficient justification for a refusal. Mr. White is engaged in lecturing upon Catholicism as a business. To our certain and personal knowledge he has followed this business for over ten years—how much longer we know not. He makes his living by it, as he has a right to do, but he has no claim upon the community justifying him in demanding the use of public buildings free of expense, in which to pursue the vocation that brings him his daily bread. It is true that the lecture advertised for the court house was to be free, but the manifest purpose was to advertise his paid lecture to night, and his books which he sells at a good round price. He is engaged in this business for the same reason that the negro minstrel is in the burnt cork line—because it pays. Let him, then, do as the minstrel does—"hire a hall."

The St. Louis *Globe Democrat* has a true conception of the political situation in this state when it says: "The Republicans of Illinois are making a good start with their campaign. There seems to be harmony and good feeling everywhere, and the promises of success are excellent."

The Maine Republicans set forth in the following vigorous language the work of the Republican party:

"The constitution declares the citizens of each state entitled to all the immunities of citizens in the several states, and we hold it to be the primary and sacred duty of the National Government to protect and maintain the exercise of all those civil political and public rights by every citizen of the United States. As Republicans we are solemnly pledged to maintain these principles, and until they are cheerfully obeyed, and, if need be, vigorously enforced, the work of the Republican party is unfinished."

The Warren *Sentinel*, published at the home of the Hon. A. M. Jones, Chairman of the Republican State Central Committee, says of his election to that position:

"Mr. Jones, with his well known energy and political knowledge will make the coming fight *red hot* for the Democrats, and will not rest satisfied until he places Illinois by the side of Iowa, in Republican ranks, with a majority of at least 25,000. The Republicans of the State can rest assured that Mr. Jones will do all he can to win for them a victory, and we know he would esteem it a privilege to counsel with them, and share their advice and confidence in the work that is before us as a Republican party. The Republicans of JoDaviess are especially pleased to be recognized by the selection of Mr. Jones to lead the campaign."

The effects of the disease known as "dog cholera" cannot be appreciated by those who know little of its ravages. In 1877 Whiteside county Ill. lost by this epidemic no less than 14,745 hogs. The loss in the entire state during the past year, it is estimated, amounts to millions of dollars.

The total imports into this country during the fiscal year ending June 30th, 1878, were valued at $437,051,532, being $14,271,593 less than those of the previous year. The total exports for the fiscal year ending June 30, were valued at $691,884,290, being an increase of $92,105,989 as compared with the exports of the preceding year. The exports for the fiscal year ending June 30, exceeded the imports by $255,832,667, which shows the amount of the balance of trade in our favor. With such a splendid showing which is improving on our side of the ledger all the while one would reasonably suppose that hard times would not continue much longer in this country.

SCARCELY CONSISTENT.

Some tender footed Democrats are in terrible horrified over the idea that Mr. Slade, the Republican candidate for State superintendent, should so far forget the properties of a non-partisan office as to attend teachers' institutes while an election is pending. These same objectors see no impropriety however, in Mr. Etter who is a candidate for re-election, and who has been nothing but a partisan aspirant and partisan from the time he was first nominated until now, inaugurating in the last year of his term of office a political campaign among the institutes of the state. The real trouble in this case is that the contrast between the two candidates will be so great and so much in favor of Mr. Slade, that the partisans who are supporting Mr. Etter and supporting him solely because he is a partisan candidate, are afraid of the result. If Etter received votes only on his merits and qualifications, he would be included in the returns of "scattering." Mr. Etter is known and will be rejected. Mr. Slade will become known and be accepted. The feat of riding two horses cannot be repeated this year.

The New York *Tribune* never said truer words than when it stated the fact that the currency question cannot be definitely settled in this country by the sure approach of resumption nor by resumption itself because it was the old contest between ignorance and knowledge between honesty and dishonesty between shiftlessness and thrift. When the people of this country become intelligent and honest there will be no difference of opinion about the currency. Until that time the body politic will be affected with all kinds of mad schemes.

THE EAST ST. LOUIS MUDDLE.

PITTSBURG, PA., Aug. 3.—The following is the substance of the confession made by Miss Hartley, who has created a great sensation in Snyder county, by implicating several men in the murder of an aged couple. Last winter she accompanied Eddinger, a beau of hers, for the purpose of getting measured for a pair of shoes at Israel Erb's, who is a shoemaker. On the road they were overtaken by Uriah Mayer and his wife, who were also going to Erb's. A little while before they reached Erb's house they were met by him. He came out of the woods. Here they halted and after talking awhile the men proposed to the women that they should remain there in the woods while the men should go to Kinzler's to see about something, giving as a reason for leaving the women behind that they had to cross logs. After the men were gone some time the women heard a noise which sounded like breaking glass. They became so anxious to know what was going on that they approached the house, where they found Eddinger cutting a hole in the door with a double bitted ax. After the hole had been cut he reached through and unlocked the door. The men then entered the house and killed the two old people, striking the old woman first with a club killing her and then serving the old man in the same manner. They then searched the house and found money which they took out on the west side of the house where they divided it. Before they left they set the house on fire, burning it to the ground. The bodies of the victims were completely destroyed. The woman who is eighteen years old also implicates Perry Beckhart who removed to Ohio last winter, as one of the murderers. He was arrested after the tragedy but the evidence was insufficient to hold him. The men now under arrest are Uriah Mayer, Emanuel Eddinger and Israel Erb. John Mayer, now in Kansas, and Beckhart are expected to be taken shortly.

GALLIPOLIS, O., Aug. 3.—A terrible catastrophe occurred here at 6:30 this evening. The towboat Brilliant with a large tow, blew up a little below the head of Gallipolis Island. Pieces of the boiler and wreck were blown clear on the Ohio shore. Immediately a terrible wail of the wounded went up. The explosion was heard all over the city, and every available skiff and boat put out for the wreck. Capt. Shoemaker was killed, and several others, whose names it is impossible to get are so badly hurt they cannot live. They are a most horrible looking objects. Everything that can be done to alleviate their sufferings is being done. The boat is a perfect wreck. All the barges, which were loaded with salt and coal were injured, but only one sunk.

WASHINGTON, Aug. 3.—A gentleman resident of this city has received a private letter from New Orleans giving the cause of the sudden development of yellow fever in that city. This has been suppressed by the local newspapers. He predicts in the first place, a terrible rain of this plague and great consequent damage to the commercial interests of the state. He says that the streets of the city were never in such a filthy condition, and that rotten garbage has accumulated in the slums to such an extent as to facilitate the rapid spread of Yellow Jack. He says the fever is not sporadic, but was brought from Matanzas in one of the fruit boats of Jos. Machicha. Machicha owns a line of sailing vessels that carry bananas. A recent invoice was disinfected by a health officer. The process turned the fruit black. The invoice, instead of being condemned, was allowed to go on market. This fruit has since been traced, and it has been discovered that some of it was sent to the house where the first case of Yellow Jack was developed.

ST. LOUIS, Aug. 3.—The application by the charter (or Wider) City Council of East St. Louis for an injunction to restrain Mayor Bowman and all members of the City Council and city officers elected under the general law, last April, from exercising the functions of their various offices, came up before Judge Snyder, of the circuit court at Belleville, to day, and a change of venue was taken by the Bowmanites. The case will probably come up before Judge Watts, of the circuit court at Nashville at the next term.

Mayor Bowman, as relator, filed information in the nature of a *quo warranto* against the Metropolitan Police Commissioners of East St. Louis, in Judge Snyder's court at Belleville, to day, and the case will be heard at the September term.

ST. JOHN, N. B., Aug. 3.—Lew Davis, a song and dance man, with the California Minstrels, cut his throat in the dressing room of Dockrill's Opera Hall just before the commencement of the performance this evening.

NEW ORLEANS, Aug. 3.—During the past 24 hours there have been cases, 33, deaths, 7. Total cases to date, 2,33, total deaths, 60.

NEW ORLEANS, Aug. 4.—New cases, 36, deaths 11. There has been rainy weather the past 24 hours. Yesterday the mercury fell about 10 degrees, an favorable for the sick.

CAIRO, ILL., Aug. 4.—On the arrival of the steamer Golden Crown, last night the quarantine officers found a lady sick with what is said by Vicksburg and Memphis physicians to be the intermittent fever, but which Dr. Dunning, the quarantine physician here, pronounced yellow fever, and the boat was not permitted to land. An authenticated report comes from Caledonia that the patient died after leaving here and was buried at Caledonia. As a further precaution against yellow fever, after to morrow, passenger coaches from below will not be transferred across the river, but passengers will change cars at the transfer steamer.

ST. LOUIS, Aug. 4.—Dispatches from Texas show that quite a considerable number of railroad towns and cities in that State are thoroughly quarantined against New Orleans, and that it is their determination to keep the yellow fever out of Texas, if possible. The International & Great Northern refuses to take any passengers, freight, express matter or mails from New Orleans over their road.

CINCINNATI, Aug. 3.—Business circles in Cincinnati to day were thrown into a commotion by the announcement of the failure of the well known grocery firm of R. M. Bishop & Co., of which Gov. Bishop, of Ohio, is senior member. The failure is a bad one, and the belief is that not more than 50 cents can be made to pay. Gov. Bishop makes a statement for the firm, from which your correspondent learns that the house has done business here for over thirty years and was the largest wholesale grocery in the city. Sales of late years have been over $1,000,000 per annum. The failure is attributed solely to shrinkage in real estate and merchandise and a failure of customers to meet engagements. The firm's liabilities are about $360,000, the assets are considerably less. Gov. Bishop says he will sacrifice all he has in the world towards paying the debts of the firm. One of his sons is now in the East trying to effect a compromise with creditors.

DENVER, COL., Aug. 3.—The arrest of H. P. Marston last night for poisoning his late partner, Edward Higgins, who died July 1, as was supposed from natural causes, created intense excitement to-day when the facts became known. Higgins physician had suspicions before death of foul play. The stomach was removed to Boston. An analysis by Prof. Ward of Cambridge post mortem by the medical examiner of Boston revealed the presence of a some in sufficient quantities to cause death. The evidence of Marston's guilt is voluminous and strong. He was arrested on the eve of departure. Higgins was a son of R. R. Higgins, wholesale oyster dealer of Boston. Marston is said to be a bad character, and is accused of safe blowing in Boston, and of having a wife and child in Stoneham, Mass., while living with another woman here. All the circumstances point to his guilt. The motive was to systematically rob Higgins and bleed his father, and finally get possession of the whole business. The examination begins on Monday next.

The commander at Fort Wallace has sent a body of cavalry after the Indians supposed to have murdered John McLean at Cheyenne Wells. The reds are moving north. Gov. Routt will intercept them before they reach the mountains. A large force of settlers, fully armed, are on the trail.

SPRINGFIELD, ILL., August 3.—The Governor this morning received a message from the President of the Staunton Coal Company, at Staunton, Macoupin county, stating that the miners in that place are on a strike and asking for the protection of their property. The sheriff of that county was immediately instructed to furnish the protection asked even, if necessary, to call upon the militia company at Carlinville.

A petition was filed in the office of the Secretary of State, this morning for a license to organize the "Grand Lodge of Illinois," of the county known as "The Independent Order of Mutual Aid." The main object of the organization is to establish subordinate lodges and provide a mortuary fund not exceeding $2,000 for each member to be paid at death to the orphan children, heirs or devisees. The location of the principal office is in Lincoln, Logan county and the incorporators are J. M. Adair, William A. Howard and William D. Crowell.

RALEIGH, N. C., August 3.—Twenty three counties heard from indicate that the Legislature will be largely Democratic, though thus far the Democrats have lost nine members, divided among Republicans, Independents and Nationals, and have gained six. The Independents, however, cannot strictly be classed with the Republicans, as most of them will vote with the Democrats.

SILVER CITY, IDAHO, Aug. 2.—There are now over one hundred volunteers out from Boise and Owyhee, in pursuit of savages. The latter are traveling leisurely through the country, helping themselves to stock along the line of march. Several Chinamen witnessed from the brush the butchery of four countrymen, near Munday Ferry but could render no assistance. The Indians spared the life of an old Chinaman on condition that he would cook their breakfast. They told him that he had better leave after that, as three hundred more Indians from Oregon would soon be in the vicinity.

SAN FRANCISCO, Aug. 4.—A Boise City dispatch says the number of hostiles who passed up Snake river is variously estimated by observers from 75 to 200. These are probably what is left of the party of Bannocks who raided this section of Idaho at the beginning of the war. The Piutes and other allies are probably at Malheur and Steins mountains and along the Owyhee river, awaiting rations. They are in sufficient force to engage the attention of the troops in that quarter while the Bannocks proceed in the direction of Lemhi to form a junction with Ten Days band, who have left their reservation and are now supposed to be ready for hostilities.

A letter from Captain Hailey, from Cold Springs, on the overland road, August 2d says: "Sent scouts out to day. They have just returned and report that they found Indians in large force on both sides of Snake river. At Big Bottom near Braneau, the Indians charged the scouts for five miles, firing at them."

KANSAS CITY, Aug. 3.—The Mastin bank did not open for business this morning. A notice hung upon the door stating that owing to the continued withdrawal of deposits a temporary suspension was necessary. There was no excitement, but an intense feeling of regret among all classes. There was a meeting of principal stockholders this morning, at which Mr. John Mastin made a statement that the assets of the bank were more than sufficient to pay its liabilities, and that his own and his brother's private fortunes were pledged to the payment of every dollar in full. Col. Kersey Coates was appointed as signee and a legal assignment was made this afternoon.

What the liabilities are is now unknown. The cause of the suspension is owing largely to the effect of the recent agitation of the late funding question in which Mastin was one of the indorsers of the State Treasurer, together with James Barnes of St. Joseph is connected. It is understood that the state held by the Mastin Bank were withdrawn some days ago.

ST. LOUIS, Aug. 4.—It is unofficially stated that the liabilities of the Mastin Bank, Kansas City, are $1,000,000 and assets nominally about the same.

D. L. PRICE, Chairman Dist. Com.

HE DID RIGHT.

The attack made upon Sheriff Forstmyer last night by Rev. J. G. White, at his meeting in front of the Priest House will not hurt that officer very much in the minds of those honest people. Mr. Forstmyer tells the people in to-day's paper, just what he did and why he did it, and this perspicuous letter will not be able to extract from it much that will do him good. The note sent by the sheriff was delivered to Mr. White about twelve o'clock giving him ample time to secure the opera house if he so desired, and to give notice of the change at his afternoon meeting in Imboden's Park. His claim, therefore, that he was not notified of the sheriff's refusal until too late to procure another place falls to the ground.

The logic of the position assumed by the sheriff in his note to Mr. White is too sound to need much in the way of defense. Mr. White announces in his handbill his purpose to expose the hideousness of celibacy and promulgate horrible disclosures relative to the secret abominations of the Roman Catholic confessional, showing that ought to be a law to suppress the confessional, and the secret Roman theology, they being a public source of crime and licentiousness." Now we presume nobody will deny Mr. White right to make these statements, if he believes them to be true, but it rather a presumption upon their innocuousness to ask those who are Catholics to furnish him a place in which to promulgate such sentiments, free of expense to himself. Our laws wisely make no distinction between Catholic and Protestant. The former pays taxes for the support of the government, just like the latter. When the country is in danger the Catholic is expected to stop the bullets of the public enemy in common with his Protestant brother, and the army records show that he does his whole duty in this regard. Why then should the buildings built by taxation of which he bears his full part, be used for the purpose of casting ridicule and obloquy upon his religious faith, the peaceable enjoyment of which is guaranteed to him by the fundamental law of the land? Suppose a Catholic speaker should come along and be granted the use of the court house, in which to abuse the Protestant religion and darn it with designs upon civil and religious liberty, would there not be a howl of indignation from every Protestant in the city? And they would be justified too. Sensible Protestants will not be long in determining the right and wrong in this matter, no matter which foot the boot pinches.

But there is another aspect of this case, not touched on by the sheriff in his note to Mr. White, but which would have been sufficient justification for a refusal. Mr. White is engaged in lecturing upon Catholicism as a business. To our certain and personal knowledge he has followed this business for over ten years—how much longer we know not. He makes his living by it, as he has a right to do, but he has no claim upon the community justifying him in demanding the use of public buildings free of expense, in which to pursue the vocation that brings him his daily bread. It is true that the lecture advertised for the court house was to be free, but the manifest purpose was to advertise his paid lecture to-night, and his books which he sells at a good round price. He is engaged in this business for the same reason that the negro minstrel is in the burnt cork line—because it pays. Let him, then, do as the minstrel does—"hire a hall."

The St. Louis *Globe Democrat* has a true conception of the political situation in this state when it says: "The Republicans of Illinois are making a good start with their campaign. There seems to be harmony and good feeling everywhere, and the promises of success are excellent."

The Maine Republicans set forth in the following vigorous language the work of the Republican party:

"The constitution declares the citizens of each state entitled to all the immunities of citizens in the several states, and we hold it to be the primary and sacred duty of the National Government to protect and enforce the exercise of all those civil, political and public rights by every citizen of the United States. As Republicans we are solemnly pledged to maintain these principles, and until they are cheerfully obeyed, and, if need be, vigorously enforced, the work of the Republican party is unfinished."

The Warren *Sentinel*, published at the home of the Hon. A. M. Jones, Chairman of the Republican State Central Committee, says of his elevation to that position:

"Mr. Jones, with his well known energy and political knowledge, will make the coming fight a red hot one for the Democrats, and will not rest satisfied until he places Illinois by the side of Iowa, in Republican ranks, with a majority of at least 25,000. The Republicans of the State can rest assured that Mr. Jones will do all he can to win for them a victory, and we know he would esteem it a privilege to consult with them, and share their advice and confidence in the work that is before us as a Republican party. The Republicans of Jo Daviess are especially pleased to be recognized by the selection of Mr. Jones to lead the campaign."

The effects of the disease known as "chog cholera" cannot be appreciated by those who know little of its ravages. In 1877 Whiteside county, Ill., lost by this epidemic no less than 1,745 hogs. The loss in the entire state during the past year, it is estimated, amounts to millions of dollars.

The total imports into this country during the fiscal year ending June 30th, were valued at $437,051,552, being $11,271,593 less than those of the previous year. The total exports for the fiscal year ending June 30 were valued at $694,888,290, being an increase of $92,105,980 as compared with the exports of the preceding year. The exports for the fiscal year ending June 30 exceeded the imports by $257,836,667, which shows the amount of the balance of trade in our favor. With such a splendid showing which is improving on our side of the ledger all the while one would reasonably suppose that "hard times" could not continue much longer in this country.

These same objectors see no impropriety however, in Mr. Etter, who is a candidate for re-election, and who has been nothing but a partisan aspirant and political marplot from the time he was first nominated until now, inaugurating in the last year of his term of office a political campaign among the institutes of the state. The real trouble in this case is that the contrast between the two candidates will be so great and so much in favor of Mr. Slade, that the partisans who are supporting Mr. Etter and supporting him solely because *he* is a partisan candidate, are afraid of the result. If Etter received votes only on his merits and qualifications, he would be included in the returns of "scattering." Mr. Etter is known and will be rejected. Mr. Slade will become known and be accepted. The feat of riding two horses cannot be repeated this year.

After the hole had been cut he reached through and unlocked the door. The men then entered the house and killed the two old people, striking the old woman first with a club, killing her and then serving the old man in the same manner. They then searched the house and found money which they took out on the west side of the house where they divided it. Before they left they set the house on fire, burning it to the ground. The bodies of the victims were completely destroyed. The woman who is eighteen years old also implicates Perry Beckhart, who removed to Ohio last winter, as one of the murderers. He was arrested after the tragedy but the evidence was insufficient to hold him. The men now under arrest are Uriah Mayer, Emanuel Eldinger and Israel Erb. John Mayer, now in Kansas, and Beckhart are expected to be taken shortly.

GALLIPOLIS, O., Aug. 3.—A terrible catastrophe occurred here at 6:30 this evening. The towboat Brilliant with a large tow, blew up a little below the head of Gallipolis Island. Pieces of the boiler and wreck were blown clear on the Ohio shore. Immediately a terrible wail of the wounded went up. The explosion was heard all over the city, and every available skiff and boat put out for the wreck. Capt. Shoemaker was killed, and several others, whom rumor says it is impossible to get are so badly hurt they cannot live. They are most horrible looking objects. Everything that can be done to alleviate their sufferings is being done. The boat is a perfect wreck. All the barges, which were loaded with salt and coal were uninjured, but only one sunk.

WASHINGTON, Aug. 3.—A gentleman resident of this city has received a private letter from New Orleans giving the cause of the sudden development of yellow fever in that city. This has been suppressed by the local newspapers. He predicts in the first place, a terrible raid of this plague and great consequent damage to the commercial interests of the state. He says that the streets of the city were never in such a filthy condition, and that rotten garbage has accumulated in the slums to such an extent as to facilitate the rapid spread of Yellow Jack. He says the fever is not sporadic, but was brought from Matanzas in one of the fruit boats of Jos. Machucha. Machucha owns a line of sailing vessels that carry bananas. A recent invoice was disinfected by a health officer. The process turned the fruit black. The invoice, instead of being condemned, was allowed to go on market. This fruit has since been traced, and it has been discovered that some of it was sent to the house where the first case of Yellow Jack was developed.

ST. LOUIS, Aug. 3.—The application by the charter (or Waller) City Council of East St. Louis for an injunction to restrain Mayor Bowman and all members of the City Council and city officers elected under the general law, last April, from exercising the functions of their various offices, came up before Judge Snyder, of the circuit court at Belleville, to-day, and a change of venue was taken by the Bowmanites. The case will probably come up before Judge Watts, of the circuit court at Nashville at the next term.

Mayor Bowman, as relator, filed information in the nature of a *quo warranto* against the Metropolitan Police Commissioners of East St. Louis, in Judge Snyder's court at Belleville, to-day, and the case will be heard at the September term.

ST. JOHN, N. B., Aug. 3.—Lew Davis, a song and dance man, with the California Minstrels, cut his throat in the dressing room of Dockrill's Opera Hall just before the commencement of the performance this evening.

NEW ORLEANS, Aug. 3.—During the past 24 hours there have been new cases, 33, deaths, 7. Total cases to date, 233, total deaths, 66.

NEW ORLEANS, Aug. 4.—New cases, 26, deaths 11. There has been rainy weather the past 24 hours. Yesterday the mercury fell about 10 degrees, an favorable for the sick.

CAIRO, ILL., Aug. 4.—On the arrival of the steamer Golden Crown, last night the quarantine officers found a lady sick with what is said by Vicksburg and Memphis physicians to be the intermittent fever, but which Dr. Dunning, the quarantine physician here, pronounced yellow fever, and the boat was not permitted to land. An authenticated report comes from Caledonia that the patient died after leaving here and was buried at Caledonia. As a further precaution against yellow fever, after to-morrow, passenger coaches from below will not be transferred across the river, but passengers will change cars at the transfer steamer.

ST. LOUIS, Aug. 4.—Dispatches from Texas show that quite a considerable number of railroad towns and cities in that State are thoroughly quarantined against New Orleans, and that it is their determination to keep the yellow fever out of Texas, if possible. The International & Great Northern refuses to take any passengers, freight, express matter or mails from New Orleans over their road.

CINCINNATI, Aug. 3.—Business circles in Cincinnati to-day were thrown into a commotion by the announcement of the failure of the well known grocery firm of R. M. Bishop & Co., of which Hon. Geo. Bishop, of Ohio, is senior member. The failure is a bad one, and the belief is that not more than 50 cents can be made to pay. Geo. Bishop makes a statement for the firm, from which your correspondent learns that the house has done business here for over thirty years and was the largest wholesale grocery in the city. Sales of late years have been over $1,000,000 per annum. The failure is attributed solely to shrinkage in real estate and merchandise and a failure of customers to meet engagements. The firm's liabilities are about $350,000, the assets are considerably less. Geo. Bishop says he will sacrifice all he has in the world towards paying the debts of the firm. One of his sons is now in the East trying to effect a compromise with creditors.

DENVER, COL., Aug. 3.—The arrest of H. P. Marston last night for poisoning his late partner, Edward Higgins, who died July 1, as was supposed from natural causes, created intense excitement to-day when the facts became known. Higgins physician had suspicions before death of foul play. The stomach was removed to Boston. An analysis by Prof. Ward of Cambridge post mortem by the medical examiner of Boston revealed the presence of arsenic in sufficient quantities to cause death. The evidence of Marston's guilt is voluminous and strong. He was arrested on the eve of departure. Higgins was a son of R. R. Higgins, wholesale oyster dealer of Boston. Marston is said to be a bad character, and is accused of side blowing in Boston, and of having a wife and child in Stoneham, Mass., while living with another woman here. All the circumstances point to his guilt. The motive was to systematically rob Higgins and blackmail his father, and finally get possession of the whole business. The examination begins on Monday next.

The commander at Fort Wallace has sent a body of cavalry after the Indians supposed to have murdered John McLean at Cheyenne Wells. The reds are moving north. Gov. Routt will intercept them before they reach the mountains. A large force of earthmen, fully armed, are on the trail.

SPRINGFIELD, ILL., August 3.—The Governor this morning received a message from the President of the Staunton Coal Company, at Staunton, Macoupin county, stating that the miners in that place are on a strike and asking for the protection of their property. The sheriff of that county was immediately instructed to furnish the protection asked, even, if necessary, to call upon the militia company at Carlinville.

A petition was filed in the office of the Secretary of State, this morning, for a license to organize the "Grand Lodge of Illinois," of the society known as "The Independent Order of Mutual Aid." The main object of the organization is to establish subordinate lodges and provide a mortuary fund not exceeding $2,000 for each member to be paid at death to the orphan children, heirs or devisees. The location of the principal office is in Lincoln, Logan county, and the incorporators are J. M. Adair, William A. Howard and William D. Crowell.

RALEIGH, N. C., August 3.—Twenty three counties heard from indicate that the Legislature will be largely Democratic, though thus far the Democrats have lost nine members, divided among Republicans, Independents and Nationals, and have gained six. The Independents, however, cannot strictly be classed with the Republicans, as most of them will vote with the Democrats.

SILVER CITY, IDAHO, Aug. 2.—There are now over one hundred volunteers out from Boise and Owyhee, in pursuit of savages. The latter are travelling leisurely through the country, helping themselves to stock along the line of march. Several Chinamen witnessed from the brush the butchery of four countrymen, near Munday Ferry but could render no assistance. The Indians spared the life of an old Chinaman on condition that he would cook their breakfast. They told him that he had better leave after that, as three hundred more Indians from Oregon would soon be in the vicinity.

SAN FRANCISCO, Aug. 4.—A Boise City dispatch says the number of hostiles who passed up Snake river is variously estimated by observers from 75 to 200. These are probably what is left of the party of Bannocks who raided this section of Idaho at the beginning of the war. The Piutes and other allies are probably at Malheur and Steens mountains and along the Owyhee river, awaiting rations. They are in sufficient force to engage the attention of the troops in that quarter while the Bannocks proceed in the direction of Lemhi to form a junction with Ten Days band, who have left their reservation and are now supposed to be ready for hostilities.

A letter from Captain Hailey, from Cold Springs, on the overland road, August 2d says: "Sent scouts out to day. They have just returned and report that they found Indians in large force on both sides of Snake river. At Big Bottom near Brunneau, the Indians charged the scouts for five miles, firing at them."

KANSAS CITY, Aug. 3.—The Mastin bank did not open for business this morning, a notice being posted on the door stating that owing to the continued withdrawal of deposits a temporary suspension was necessary. There was no excitement, but an intense feeling of regret among all classes. There was a meeting of principal stockholders this morning, at which Mr. John Mastin made a statement that the assets of the bank were more than sufficient to pay its liabilities, and that his own and his brother's private fortunes were pledged to the payment of every dollar in full. Col. Kersey Coates was appointed assignee and a legal assignment was made this afternoon.

What the liabilities are is now unknown. The cause of the suspension is owing largely to the effect of the recent agitation of the state financial question in which Mastin was one of the indorsers of the State Treasurer, together with James Barnes of St. Joseph is connected. It is understood that the state held by the Mastin Bank were withdrawn some days ago.

ST. LOUIS, Aug. 4.—It is authoritatively stated that the liabilities of the Mastin Bank, Kansas City, are $1,000,000 and assets nominally about the same.

Morbid Affair —On Saturday evening between sunset and dark a ludicrous sight was observable on the Old Square, which though a sad one was amusing Two men who had evidently patronized the saloons freely during the day, had started for home, each one on a mule After mounting, one of the men found that it would require all his remaining strength to cling to the saddle without devoting any attention to the guiding of the animal To meet this dilemma the man on the other mule took the fellow unsteadily the fat and fed Unable to follow him to the saddle In the manner the two made their way to the watering trough on the Old Square where the mules locked their thirst and they went on their way As they moved along the fellows swayed to and fro threatening every moment to fall off the saddle but which they remained to the last kept on top of the mule It was an interesting, humorous and natural one

A New Enemy to Fruit Trees The tree seems complained of of the ravages of leaf eaters on trees by a small insect which causes the leaf to wither and die and in some cases even vine leaves Found the fly the ravages of the intruder appear to seem to be particularly liable to attack and there is a prospect that the crop will be considerably injured by the little pest The insect is so small as to be nearly invisible to the naked eye but which leaves it fastens upon the leaf a blister or nipple in which it and encloses itself In some cases there may be found as many as fifty or more of these blisters upon a single grape leaf Fastening as they do upon most of the leaves of a vine on tree it is exceedingly difficult to destroy them They also operate on peach trees but we have not heard of any ravages by them upon peach trees

Barnum's Show To Morrow The long expected and long desired event of the season is upon us and to-morrow all the people of Macon county will have an opportunity to witness a show such as Barnum alone can get up At 9 o'clock in the morning comes the grand street exhibition free to all which is really the finest and most wonderful demonstration of the kind ever witnessed At one o'clock in the afternoon the doors will be opened at the grand pavilion for the first tent exhibition when there will probably be gathered under the immense canvas an admiring crowd of people from all parts of the country and the regions round about At 7 o'clock in the evening the doors will be open when the city people will take their turn at the grand show Should the weather be favorable Barnum's day will be simply magnificent in Decatur and all will have to look out for their toes on account of the throng upon the street Barnum is the boss and everybody is bound to see his show

AN ASTONISHING FACT.

A large proportion of the American people are to day suffering from the effects of Dyspepsia or disordered liver The result of these diseases upon the masses of intelligent and valuable people is most alarming making life actually a burden instead of a pleasant exhibition of enjoyment and usefulness as it ought to be There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower, your speedy relief is certain Millions of bottles of this medicine have been given away to try its virtues with satisfactory results in every case You can buy a sample bottle for 10 cents to try Three doses will relieve the worst case Positively sold by all Druggists on the Western Continent

A New Marble Yard —Messrs Young & Pagold, who succeed to Mr W M Barrett, in the marble business have opened a yard on the northeast corner of East Main and Franklin streets, where they carry on marble and stone work in all its branches They propose to keep the best of stock and do work that cannot be excelled Mr J. W Parker is the traveling agent and salesman for the new firm and he's a good one

Clifford's Febrifuge. In the cure of Fever and Ague this remedy displays extraordinary powers Properly used, no case can resist it and other diseases of an intermittent character, including that most direful sin disease *periodic of New Orleans* have been found to yield, with equal certainty to its influence It eradicates all malaria from the system and prevents its return from the system and prevents its return from the system and prevents its return

Remember John Dillon on Thursday evening

To-Morrow morning 9 o'clock sharp, look out for the grand street parade of Barnum's show

Barnum shows at Danville to-day, and his train will arrive from the east at an early hour to-morrow morning.

Rev J G Worrn will lecture in the Baptist church, to men only, this evening at 8 o'clock

The gathering of people having business in court gives the city a lively appearance to-day

Fellows who want to enjoy the luxury of a close shave of the head should attend to it without delay, or the weather will be too cool

The park basin has to be cleaned twice each week in order to keep the water clear Mr Bird attends to the matter faithfully and the water in the basin is kept clear and sparkling

On Saturday evening a four horse pedigree was labeled "Great Eastern" passed through town toward the west It was taken by many to be the advance car of the circus kind, as the Great Eastern and the boys peopled in hopes of the prospect of another show so

This week will give the farmers work to housing and the harvesting of the oats Threshing will be taken hold of in earnest if the weather is favorable and a good deal of wheat will be cut before the close of the week

Farmers are now free of our city churches will not preach The Baptist and Episcopal We understand that the late court of Episcopalians to the latter in which case he took the pulpit to task for it without a rector, may result in stopping the vacancy at an early day and we suppose the Baptist congregation will be left long without a pastor

For the benefit of caterpillars who happy upon fruit trees so extensively nearly every year, the present season is attributed by many to the presence of the English sparrow in the city

A good job in the line of repairing dangerous crossings is being done at several points in the city and we presume that certain walks which are in a condition that renders it unsafe to travel on them will be attended to in due time There are several walks that might be named which would certainly give the city trouble should an accident occur on them It is much the cheaper to repair them than to risk a claim for damages brought by an injured party

We hear some complaint about bowel affections in the city especially among children With the hot weather upon us we all kinds of fruit in the market people will have to use a little caution in order to prevent sickness Regularity in diet and sleep and a moderation in exercise during the hottest part of the day will be found to be a kind of safe guard against summer complaints

At the Old Place In response to many inquiries we are requested to say that the show to-morrow will be on the old ground on North Main street

Forse Gentry This morning Julius Reichart was before Justice Curtis on a charge of selling liquor without a license Upon hearing the case the court held defendant guilty and assessed a fine of twenty five dollars and costs and order d him committed until the fine and costs are paid

The Niagara Excursion Avery and excursion to Niagara comes off just one week from to-morrow which will be August 14th This is the chance of the season for a seven days trip at a moderate expense To those it is to allow a rare opportunity to go by unemployed Get ready in time and make all the necessary arrangements so that you can enjoy the trip Tickets only $7 50 good for seven days Remember the train leaves Decatur at 11 30 a m

CLEAR THE WAY

For the escape from the system of its waste and debris which if retained, would vitiate the bodily fluids and overthrow health That important channel of exit the bowels may be kept perfectly free from obstructions by using the non griping gently acting and agreeable cathartic, Hostetter's Stomach Bitters which not only liberates impurities, but invigorates the lining of the intestinal canal when weakened by constipation or the unwise use of violent purgatives The stomach, liver and urinary organs are likewise reinforced and aroused to healthful action by this benificent tonic and corrective, and every organ Blood muscle and nerve experiences a share of its invigorating influence Unobjectionable in flavor a most genial and wholesome medicinal stimulant, and owing its efficacy to botanic sources exclusively it is the remedy best adapted to household use on account of its safety wide range and speedy action

Murder Air —On Saturday evening between sunset and dark a ludicrous sight was observable on the Old Square, which though a sad one was amusing Two men who had evidently patronized the saloons freely during the day, had started for home, each one on a mule After mounting one of the men found that it would require all his remaining strength to cling to the mule without devoting any attention to the guiding of the animal To meet this dilemma the man on the other mule took the fellow animal by the bit and led it while the fellow clung to the saddle In the manner the two made their way to the watering trough on the Old Square where the mules locked their thirst and they went on their way As they moved along the fellows swayed to and fro this way, every moment to fall to the road but which they managed to keep from doing The mule kept time to the music of the jingling of the money in their pockets It was an amusing time, demonstration of mankind

A New Enemy to Fruit Trees There is much complaint about the ravages of leaf eaters on trees by a small insect which causes the leaf to wither and die and in some cases the end vine leaves fruit liable by the excreta of the intruder upon leaves seem to be particularly liable to attack and there is a prospect that the crop will be considerably injured by the little pest The insect is so small as to be scarcely visible to the naked eye but where it visits upon the leaf a blister or cruise is which that it soon crumbles and dries Some cases there may be found as many as fifty or more of these blisters upon a single grape leaf Listening as they do upon most of the leaves of a vine or tree it is exceedingly difficult to destroy them They also operate on peaches but we have not heard of any ravages by them upon peach trees

Barnum's Show To-Morrow The long expected and long desired event of the season comes upon us and to-morrow all the people of Macon county will have an opportunity to witness a show such as Barnum alone can get up At 9 o'clock in the morning comes the grand street exhibition free to all which is really the finest and most wonderful demonstration of the kind ever witnessed At one o'clock in the afternoon the doors will be opened at the grand pavilion for the first tent entertainment when there will probably be gathered under the immense canvas an admiring crowd of people from all parts of the country and the regions round about At 7 o'clock in the evening the doors will be open when the city people will take their turn at the grand show Should the weather be favorable Barnum day will be simply immense in Decatur and all will have to look out for their toes on account of the throng upon the street Barnum is the boss and everybody is bound to see his show

MARRIED.

On Sunday evening August 4th at the residence of the officiating magistrate L L Wood Esq Mr Charles N Norris and Mrs Mary Pourmouse both of Decatur

The Old Square The prohibiting of teams from feeding on the Old Square has created some consternation among the merchants whose places of business are contiguous thereto A remonstrance has been circulated which is quite generally signed by them asking for the rescinding of the order We understand that the Board of Health took some action in the matter, and that the prohibition named was in obedience to its order We presume that the matter will be discussed at the meeting of the council to-night and some understanding arrived at in relation to it Merchants doing business in the vicinity claim that it is disastrous to the trade to prohibit teams from hitching and feeding there

TUTT'S PILLS.

For ten years TUTT'S PILLS have been the recognized Standard Family Medicine in the ATLANTIC STATES. Scarcely a family can be found from MAINE to MEXICO that does not use them. It is now proposed to make their virtues known in the WEST.

A single trial will Establish their Merits

You ask, Do they Cure everything?

NO.—They are for Diseases that result from MALARIAL POISON and a DEBILITATED LIVER, such as Dyspepsia, Bilious and Typhoid Fevers, Chills and Fever, Fever and Ague, Chronic Diarrhœa, Dysentery, Jaundice, Palpitation of the Heart, Neuralgia, Rheumatism, Kidney Disease, Chronic Constipation, Piles, &c.

WHERE MORNA YOU THAT YOUR LIVER IS DISORDERED

When you have a DULL PAIN IN THE SHOULDER; COATED TONGUE; COSTIVE BOWELS; WEIGHT IN THE STOMACH AFTER EATING; SOUR ERUCTATIONS; LOW SPIRITS; AVERSION TO EXERTION OF BODY OR MIND.

BE ADVISED, and AT ONCE

TAKE TUTT'S PILLS!!

The First dose produces an effect which often astonishes the sufferer, and in a short time follows an Appetite Good Digestion, SOLID FLESH & HARD MUSCLE

THE WEST SPEAKS.

"BEST PILL IN EXISTENCE."

DR. TUTT: I have used your Pills for Dyspepsia, Weak Stomach and Nervousness. I never had anything to do me as much good in this way. They are as good as you represent them. They are the best Pill in the universe, and I do all I can to recommend them with their great merits.

From Wheat to Griddle-Cakes Inside of Four Minutes.

(Carrollton Democrat)

At 4 o'clock six minutes and ten seconds the reaper drawn by Cy Burnett's dun mules, and driven by Will Turpin, stood at the corner of the growing wheat, machine in gear, ready for a start. Men were stationed every few feet along the line of grain ready to seize an armful as it fell from the reaper and rush with it to the thresher close by, which, under the direction of the veteran drivers, Buckingham and Humphreys, was getting under way for business. At the mill, just sixteen rods away, Lawton stood at the window watching the moment when McCaw, the swiftest horse in the county, should start from the thresher with the grain, while Mrs. Lawton and her niece, Miss Alice had all the preparations made to make griddle-cakes and biscuits in the shortest possible time. At the drop of the hat the dun mules sprang to the work, and in one minute and fifteen seconds the threshed wheat, about a peck, was in the sack and on the horse, and the race commenced for the mill. There were two bridges to cross, and the excited spectators could only see a column of dust, hear a couple of taps on the plank bridges as the horses flew over them at lightning speed, and the wheat was delivered to Lawton in the mill. In 2 minute and seventeen seconds the flour was delivered to Mrs Lawton and in three minutes and fifty five seconds from the starting of the reaper the first griddle-cake from the hands of Miss Alice was gobbled by a dozen eager hands, and that was the last of it. In four minutes and thirty seven seconds from the starting of the reaper, according to the best double timer stop watch in the country held by Chatley Bracken, a quart of biscuits was delivered to the hungry crowd by Mrs. Lawton.

ENJOY LIFE.

What a truly beautiful world we live in. Nature gives us gardens of mountains, plains and oceans and thousands of years for enjoyment. We do not live half enough. Why is it that so many of us are so miserable? Why do we not enjoy life? Why do we not live? Why do we not enjoy the world? Why do we not live? Why do we not enjoy life? Why do we not live? Why do we not enjoy life? Why do we not live? Why do we not enjoy life
